About

Results-oriented **Frontend Developer** with 5+ years of experience in building scalable, user-friendly web applications using modern technologies like **React**, **Next.js**, and **TypeScript**. Proven track record in **UI/UX design**, **cross-functional team collaboration**. Adept at delivering high-quality code with an emphasis on performance optimization and responsive design. Strong background in working with front-end frameworks, state management, and API integration. Passionate about continuous learning and problem-solving, with a creative approach honed through previous experience in music and comedy.

Experience

Fortylines, Kyrgyzstan

Frontend Developer *October 2023 – Present*

- Managed the implementation of **micro frontend** architecture, enhancing application scalability and maintainability.
- Spearheaded the selection of **React** and **Next.js** for two major projects, reducing project timelines by 40%.
- Managed a team of 6 developers, conducting **code reviews**, **technical documentation**, and ensuring adherence to **GitFlow** methodologies.
- Collaborated with **UX/UI designers** to develop a **design system**, optimizing the usage of design tokens and improving **UI consistency** across projects.
- Converted designs into high-quality **React** components and integrated them with backend services using **Redux Toolkit** and **Tanstack Query**.
- Developed a custom **Chakra UI theme** for two distinct projects, ensuring design consistency and performance optimization.
- Collaborated with backend teams to implement **RESTful API** integrations, improving user experience and data flow.

Datarockets, Canada

Frontend Developer *October 2021 – June 2023*

- Designed and developed reusable **UI components** using **React** and **TypeScript**, reducing development time for new features by 50%.
- Implemented **server-side rendering (SSR)** for product feed pagination, optimizing page load times by 35%.
- Increased **code coverage** to 90% by writing unit and integration tests with **Jest** and **Playwright**.
- Integrated third-party services such as **Google Maps**, **Firebase**, and **Slack** into web applications to enhance functionality.

Argenta, Russia
Frontend Developer *March 2020 – October 2021*

- Optimized the performance of data visualization applications.
- Enhanced code quality to improve user engagement and functionality.

Skillcrucial, Singapore
Full Stack Developer *March 2019 – February 2020*

- Designed and developed responsive user interfaces, delivering intuitive user experiences.
- Conducted coding challenges and training sessions for students, improving their technical skills.
- Executed unit and end-to-end tests to identify errors and optimize application performance.
- Revamped legacy applications into modern SPAs, enhancing UX/UI and overall system usability.
- Troubleshoot and resolve software issues, optimizing performance.

Education

Kyrgyz National Technical University

Bachelor's in Food Engineering (Incomplete)

Certifications

- **HackerRank:** Certification Link

Technical skills

- **Languages:** JavaScript, TypeScript, HTML, CSS (Sass/SCSS)
- **Frameworks & Libraries:** React, Next.js, Redux Toolkit, Zustand, Jotai, Chakra UI, MUI, Ant Design, Tailwind CSS, Lodash, ChartJS, Tanstack Query
- **Version Control:** Git, GitHub Actions, GitFlow
- **Build Tools:** Webpack, Vite
- **Testing:** Jest, Cypress, React Testing Library
- **Database & API:** REST APIs, Firebase
- **Methodologies:** Agile, Scrum, Kanban
- **Other Tools:** Figma, Jira, Postman, Docker
